Waiting to hear back from Mike confirming that this is the latest product but I am pretty sure that it is. If not, I will send any updates once I hear back from him.

Josh:

I did a little additional writing on your original SO2 monitoring document to address Lynn's points.

I plan to spend more time on this to continue fleshing out the proposed plan of action.

Mike

**Subject:** Follow Up to 5/28 discussion

Hi Becky – I have in my notes that Mark wanted to meet the week of June 8 in follow up to the May 28<sup>th</sup> meeting. I think the purpose is to see where things are following MDNR's internal discussions and your team's discussion with MDNR this week. I also had noted that Mark asked for a timeline or other outline showing how the FLIR camera, the modeling, the stationary monitoring and potentially the mobile monitoring might work together.

Did you have the same action items and do you want to do the follow up discussion as part of the regularly scheduled West Lake Update meeting on June 11<sup>th</sup> or will you be scheduling something different/another time?

If you want, you, or Josh or Mark can just give me a call. I am developing a tracking system and executive report for West Lake related activities, so I would like to find some time to meet with the 3 of you about it for about 15 minutes in the next week if possible.

Thank you,

**Lynn M. Juett**
